We will install according to each theatre plan.

All circuits need to be on a dimer of the same model.

We use our own light console.

### **Working people**

- 3 peoples for light installation / 3 services of 4 hours
- 1 people for sound installation / 1 service of 4hours
- 1 people responsible for the space and its technical maters during all shows and rehearsals

Daily cleaning of the dressing rooms before the arrival of the artists

### **Wardrobe/ Dressing rooms**

- We need space for 2 dancers: 1 male and 1 female, equipped with chairs, tables, mirrors, lights, showers and WC
- Washing machine and dryer
- Iron and ironing-board
- 1 fresh towel every day for every dancer
- 2L mineral water every day for every company member and fresh fruits and healthy snacks
- A wardrobe person, one male or female help, is required to help collecting all items requiring dry cleaning, washing, pressing and small repairs
- All wardrobes must be returned to the dressing room(s) one hour prior to scheduled rehearsal time
- All rooms must be reserved for us for the whole time of our stay

### **Ballet studio**

- We will use your studio for the warm up

### **Air Condition**

- The stage, the studio and all other rooms need adequate AC and heating for the needs of dancers
- That means at the time the dancers come on stage the temperature there should be between 23°C and 24°C. (61F – 75F)

### **Requested information**

- Medical services: a list of the following should be available in the theatre: dentist, chiropractor, physiotherapist, general doctor.
- Name and telephone number of the technical director (this person has to be present or available at any time during set up, rehearsals, performances and strike)
- We would also appreciate receiving a list of restaurants in the vicinity of the theatre.
